## ISC Coronavirus Parent Survey 2020

We would like to invite you to participate in the ISC Coronavirus Parent Survey 2020. The survey is designed to help our school and the wider independent school sector understand what parents experienced during the COVID-19 lockdown last term. You can access the survey online [here](#).

The survey should take no more than 10 minutes to complete, but it must be completed in one sitting. Therefore, it is recommended that you use a reliable internet connection when completing it. Please do not complete this survey for a child who started at the school in this (autumn) term as the survey is related to the previous (summer) term.

If you have more than one child at the school and your children had different experiences of the lockdown period, you may complete the survey multiple times (to start the survey afresh, you will need to click on the above link again).

Please be assured that all responses are treated in strictest confidence and your answers will only be used to perform aggregate analysis for our school and the sector as a whole.

If you have any problems accessing the survey, please contact the ISC Research and Data Team ([research@isc.co.uk](mailto:research@isc.co.uk)).
